

**PVC PLASTIC COLUMNS TRIM AND DECK BOARDS****REPRESENTATIVE SURFACES**

Columns  
Trim Boards  
Deck Boards

**GENERAL**

100% acrylics applied directly to these surfaces are the best recommendation. Proper preparation greatly increases the probability of the best adhesion.

**SURFACE PREPARATION**

**WARNING!** If you scrape, sand or remove old paint from any surface, you may release lead dust. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a wet mop or HEPA vacuum. Before you start, find out how to protect yourself and your family by contacting the U.S. EPA/Lead Information Hotline at 1-800-424-LEAD (5323) or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

New unweathered surfaces should be cleaned with solvent alcohol to remove any surface plasticizers that have leached from the plastic. The surface should be thoroughly roughed up with fine sand paper or steel wool and wiped clean.

**PRIMERS**

None required.

**PRODUCT RECOMMENDATIONS - PVC PLASTIC COLUMNS**

<b>PRIMERS</b>	<b>FINISH COAT</b>
